

Terminal Services Windows

For Windows Vista SP2 and newer:

[Staff members who wish to log into a remote desktop directly can do so by downloading and running this preconfigured RDP file.](#)

You will need to save this file to your computer, then extract the RDP file.

Drag and drop the School_remote_access.rdp file onto your desktop.

Double click the file and enter your login details

You need to use your email address as the username

Note: If using terminal services on your personal device tick **“Remember my credentials”**
